 [SUPSAIL on YouTube](#)

Have you ever been on a paddleboard, felt the wind on your back and wished you had a quick folding sail? Enjoy all the fun of paddling and all the fun of sailing.

Nick Robinson is delighted to offer 2 free Supsail taster sessions to Hayling Island Sailing Club on 6th June 1000 to 1200 and 1300 to 1500. If you are interested please send an email to [info@supsail.com](mailto:info@supsail.com) indicating which of the two slots you would like to attend. Spaces are limited to 10 people per session. Please bring: appropriate attire, paddleboard, paddle, buoyancy aid and leash. I look forward to seeing you on the water!

## Unlock Endless Adventures on the Water

Discover Supsail – The Ultimate Add-On for Stand-Up Paddleboarders

Are you ready to transform your SUP sessions from calm paddling to exhilarating sailing? **Supsail** is the innovative, lightweight sailing rig designed exclusively for stand-up paddleboards (SUPs). Dual freedom on the water - sailing and paddling!

### Why Choose Supsail?

- **Effortless Range Extension:** Harness the wind to glide further and explore more without tiring out. Perfect for open-water adventures, coastal cruises, or multi-hour outings.
- **Beginner-Friendly Training Tool:** Build confidence in sailing basics while honing your SUP balance. Ideal for aspiring sailors transitioning to windsurfing, wingfoiling, kiteboarding or dinghy sailing.
- **Portable & Easy Setup:** Weighs under 3.5kg, packs into a compact bag, and assembles in less than 10 seconds. Fits all standard SUPs (9-14 ft)

- **Safe & Stable Design:** Low center of gravity, forgiving sail shape, and quick-release system for instant depowering. Built with durable, marine-grade materials.

*"Paddle less, sail more – extend your SUP adventures by miles!"*

## How It Works

1. **The Supsail comes Rigged:** Take it out of its sailbag and deploy in seconds.
2. **Launch the Sail:** 1 wing to begin with for a beginner or if the wind picks up, 2 wings for the more experienced user.
3. **Catch the Wind:** Steer with your paddleboard with your feet as you would a surf board.
4. **Store & Go:** Fold it down and lash it to the centre grab handle, in or out of its bag, grab your paddle, resume paddling.

*"Supsail turns any breeze into a delightful standup sailing moment."*

The Supsail is a new type of sail designed to be used with any paddleboard without the need for modification. The experienced paddleboarder, after 15 minutes of product training, will delight in the joy of stand up sailing and really enhance a downwinder. With further practice, be able to tack upwind and pull off all sorts of fun tricks. At the heart of the idea of the Supsail is optionality - being able to both paddle and sail and only take a few seconds to toggle between the two modes. The Supsail can be furled or unfurled in under 5 seconds and can be operated like a windsurf sail or wing. Windsurfers and wingers will get it immediately, non sailors will discover they can stand up sail on their first go with minimum instruction. The three key use cases for it are: Range extension for a paddleboard tour; Supsail Racing; and simple fun messing around on the water. Maybe using it as a training sail to get comfortable with stand up sailing if windsurfing, winging or kitesurfing is your next goal. Sweet spot wind strength is a gentle breeze, an easy wind strength to paddle directly into and a good strength to get moving nicely under sail.
